

**Addendum #002: Questions, Comments & Clarifications (02/24/2020)**  
**Luzerne County Transportation Authority (LCTA)**  
**Request for Proposals (RFP 19-20-002)**  
**Perimeter Security Fence & Gate**

**Concern:**

**LCTA is issuing the following clarifications and amendment(s) to RFP 19-20-002 (including extension of the RFP due date which is now March 25, 2020):**

- All RFP dates have been extended by three (3) weeks starting with the due date, which has been extended to March 25, 2020.
- Due to PADEP & Conservation District “earth disturbance” regulations, bidders are not required to cut down and remove stumps of existing trees within the 25 ft. wide property/fence line; this includes the large 20’-30’ trees along South Pennsylvania Avenue. A separate RFP will be released for the clearing, grubbing, and disposal of trees, snags, logs, brush, stumps and shrubs for the entire property.
- Please note with reference to the above change; the contractor (proposer) will still be responsible for any remaining clearing and grubbing within the 25 ft. wide property/fence line. This includes anything which was not removed during the overall property clear & grub process; including removal of any existing fencing and the removal or moving (pushing out of the way) of any large concrete slabs.
- Funding for this project is still being established... Due to the possibility of multiple project funding streams (Federal funds and State funds); Federal-funding requirements may apply. Including, but not limited, to:
  - Federal Buy America requirements
  - Federal Labor compliance – wage rates, interviews, payrolls, etc.
  - Federal DBE requirements – good faith efforts, etc.
  - All State/Federal clauses and requirements as stated in the original RFP
